DETAILED ACTION

Response to Amendment

1. The amendment received on 6/13/2005 has been reviewed and considered with the following results:

As to the objection to the drawings, Applicant's revision of the drawings has overcome the objection, as such; the objection has been withdrawn.

As to the objections to claims 1, 4, 11, and 14; Applicant's amendments have overcome the objections, as such; the objections have been withdrawn.

As to the prior art rejections to the claims, Applicant's amendments with respect to the previous prior art rejections mailed on 02/24/2005 have overcome the rejections, as such; the prior art rejections have been withdrawn. Therefore the case is found to be in allowance condition for the reasons as set for below.

REASON FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or fairly suggest an analog DLL circuit (as shown in Fig. 5) having a very specific limitation as the tracking analog-digital converter (100 in instant Fig. 6) includes a voltage comparator (110) for comparing the reference voltage (VC) with the tracking voltage (VT); a counting means (120) for counting in response to an outputted signal (UP1, DOWN1) from the voltage comparator, and for outputting a counting signal; a register (130) for storing a digital value which corresponds to the counting signal; and a digital-analog converting means (140, 160) for generating a voltage which corresponds to the digital value, and

for outputting the voltage as the tracking voltage (VT); and being configured in combination with the rest of the limitations of the base claims and any intervening claims.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
